

EcoTipping Points Facilitation Guides

Impact Worksheet

List potential interventions down the left side.

Use columns for:

- Potential Impact on crisis (High/Medium/Low)
- Resource Needs (skills, labor, finances, technology)
- Community Support: consider both confidence in strategy and capacity to provide resources
- Major Obstacles: consider social, political, technical, and available resources

Fill in together as a group, discussing patterns and tradeoffs to help identify which interventions may be both powerful and realistic.

Potential Interventions

Intervention	Potential Impact (H/M/L)	Resource Needs	Community Support	Major Obstacles
